ASTEME LEARNING CENTER
Advancement of Science, Technology, & Engineering in Math Education

HOME SCHOOL & DAY PROGRAMS
8-Week Sessions September 12th – November 12th
ASTEME is a vendor for Sky Mountain, iLead, Golden Valley & Summit Academy

Join us as we continue our amazing fun filled journey exploring math ideas in the Science, Technology & Engineering fields with BRAND NEW ACTIVITIES inspired by our summer program. In our upcoming fall session, we will be looking at how math is used in Chemistry, Biology, Psychology, & Geology! The students will learn about the physics behind archery using HTC Vive virtual reality, the engineering behind Juno and the current Jupiter mission, program our brand new Kamigami robots, and much, much more!!

ASTEME is now offering a specially designed home school program that will differentiate and individualize the math curriculum to meet the needs of each and every student. Two options will be offered during the daytime. Our twice a week home school program will focus on developing a strong mathematical foundation while learning math in a STEM rich environment. Our once a week day program will be similar to our popular after school & Saturday programs, but will feature an individualized curriculum.

In addition to our math curriculum, we will be offering two computer coding classes that will meet once on Thursdays from 11:45-1:15PM. If you sign up for both the coding class and the home school programs, you are welcome to stay during the transition period to play and socialize.

Home School Programs Tuesday & Thursday (Twice a week – 14 classes)
Tuesday & Thursday (3rd – 10th)   10:00AM-11:30AM
